D.R. 2014 The Little Tikes Company LITTLE TIKES is a trademark of Little Tikes in the U.S. and other countries. Contents, including specifications and colors, may vary from photos depicted on package. Assembly of the Little Tikes car bed starts with attaching four wheels to the side panels using screws and hubcaps. The panels are then connected, starting from the left side, with extra support provided by propping the first panel against a wall. Each major part is secured with screws featuring caps with loops to prevent them from falling off. To assemble the mattress support, place wood slats into the lower level of the bed frame and snap them into place. For a box spring and mattress setup, add the box spring and then the mattress. Alternatively, use a bunkbed support board or plywood for a flat support, placing it on the slats before adding the mattress. Finally, dress up the bed with car-themed bedding to encourage imaginative play.
